The Best in Modern Dahlias

Pennypack

STANLEY JOHNSON

CHELTENHAM, PA.

Foreword

QUALITY:—It is the aim of Pennypack to introduce dahlias that will grow for you so as to brighten your garden or produce show winners. While much emphasis is placed on creative work of developing superior strains of new dahlias, most responsibility is given to the maintaining of reasonably disease free foundation stock. Field planting at farm—Dresher, Pa. This land once produced the famous Pennsylvania white potato.

WEATHER HERE: The normal precipitation for each of the following months is 4 inches; May, June, July and August. A little on the minus side for May and June and plus for August and September.

SEASON 1957 AS — plus 1" in May, a little over 2" in June, not even an inch of rainfall in July while in late August we did get 3". Good strong roots and exhibition flowers are the result of careful soil preparation, proper feeding and lots of water. There is nothing better for growing dahlias than a good soaking rain. There will be a definite shortage of good root stock this year.

SHOW RECORD: Pennypack's new dahlias were big winners in 1957. "GOODY" won four American Home Achievement medals; four American Dahlia Society's Gold Medal Seedling Sweepstake Awards and a basket of twelve blooms in open competition awarded the most meritorious exhibition of the show. These results were accomplished despite our unfavorable growing season. "GOODY" had to be tough and good to win. In fact, winning at shows is a habit of **Pennypack** dahlias.

PRICE:—All Pennypack dahlias are priced right. Comparison shows my prices most reasonable. Policy—high quality, low price.

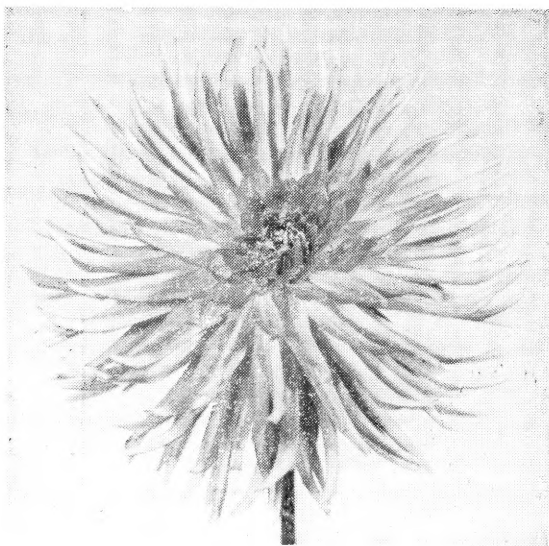

RESULTS:—You can expect. Winnings for 1957 are surely impressive, but the final success is your satisfaction. A program involving testing both in the field and exhibition gardens has been carefully conducted. Any dahlia failing to grow properly under ordinary field conditions, does not bear the Pennypack label. Your Friendship is worth a Pile-O-Gold to Pennypack.

PENNYPACK
Stanley Johnson

PHILADELPHIA, PA.

Printed in USA

The thirty-five All-America Trial Garden locations (see map) are in every type of soil and climate. Recommendation by this non-profit, industry-wide organization is recognized as the most coveted award for any gladiolus. Every variety tested is rated on thirteen specific traits: Color Value, Freedom from Short Heads, Floret Form, Substance, Facing & Placement, Attachment, Freedom from Weathering, Opening & Keeping Qualities, Individuality, Freedom from Crooking, Foliage Health, Husk & Bulb Health, Propagation. **EMPEROR** is the 1958 winner, and is now available with **ROYAL STEWART**, **APPLEBLOSSOM**, **MAYTIME** and **CARIBBEAN**.

All-America varieties are all protected by U.S. plant patents and sold at uniform low prices—the lowest ever for new, quality introductions. Even if you have not been successful with glads before, try the All-Americas. They are *different*.

CULTURE: AAGS recommends these steps for growing glads: (1) Open package at once and store bulb in cool dry place. (2) Plant at intervals of 10 days from last killing frost. Early plantings can stand moderate frost. (3) Plant in open sunny place, in bed or row, and in any well-drained soil. (4) Plant bulbs 5 inches deep, at least 4 inches apart. Use any good commercial fertilizer, but do not put it in

contact with the bulb. (5) Glads like plenty of water, especially when bud is forming. (6) When cutting, leave 4 leaves to mature the bulb. (7) Thrips are insect pests of glads. For complete control, use DDT dust or spray every 10 days. (8) Some growers soak bulbs in Lysol solution for 2 hours before planting and plant wet. Use $1\frac{1}{4}$ teaspoons Lysol to 1 gallon water.

PRICE: \$.50 each, \$5.00 per dozen (any combination) or one of each variety for \$2.25.

EMPEROR (Pl. Pat. Pending) is a robust grower, royal purple with light throat. A rich, distinctive color. Makes majestic spikes that grow very tall.

ROYAL STEWART (Pl. Pat. 1339) is a he-man red, straight and with 8-10 open at once. An outstanding winner of top Awards.

MAYTIME (Pl. Pat. 1591) is a real stunning pink with white throat. Delightful for arrangements. Ruffled and healthy. Remarkably easy to grow.

CARIBBEAN (Pl. Pat. Pending) is a light blue with throat of cream and white. Sparkling color, ruffled. A top performer in every way.

APPLEBLOSSOM (Pl. Pat. 1517) is white with rose-pink edges—a real beauty. An easy grower that performs excellently with only average culture.
